

The Triangle Apartment Association is a 501(c)6 tradeassociation. Individuals and companies join the Triangle Apartment Association on a voluntary basis. It is not a required membership. As such, our members expect to receive communication from us regarding events, products, services, continuing education opportunities, legislative updates, etc. This communication takes place in the form of regular mail, email, and faxes. The new FCC regulations regarding faxes will be extremely burdensome for the association community. In addition, removing the "established business relationship" qualification from the fax regulations is very bad for business, forcing associations and other companies to obtain the written consent of their own members, clients and industry partners before transmitting any fax that could be interpreted as commercial in nature. The association community has already raised numerous concerns about the new regulations that remain a subject of speculation, including exactly which transmissions the FCC would interpret as commercial in nature, whether written consent to a national association would extend to chapter or affiliate faxes, and whether a written consent form would expire with membership. The FCC needs to re-examine these new rules and the detrimental impact that it is going to have on businesses, associations, etc.
